

## **Bray Lions Club**

### **Health and Safety Policy Statement**

The Board of Directors of Bray Lions Club recognises that a positive approach to health and safety is a fundamental part of effective and efficient management of this Club's affairs. The Board is therefore committed to its responsibilities to assess and manage the risks to all who participate in the business and service activities of this Club, including club members and members of the general public.

The health and safety responsibilities, as set out in both Lions Clubs International and the Safety Policy of Multiple District 105 are recognised and endorsed by this club. Club Officers are required to ensure that adequate standards of health and safety are factored into the planning, preparation and execution of all this Club's activities. They are also required to ensure that all hazards and risks associated with the activity are effectively managed to offer reasonably practicable safety to all who participate or may be affected by the activity.

This Health and Safety Policy will be reviewed and updated on an annual basis or sooner in the light of changes in legislation or substantial changes within the Club Structure.
